HOUSING TRUST FUND CORPORATION

OPERATIONS AND ACCOMPLISHMENTS FISCAL YEAR APRIL 1, 2025 TO MARCH 31, 2026

New York State Homes and Community Renewal ("HCR") serves New Yorkers by fostering the creation and preservation of affordable housing and community development initiatives in accordance with the vision of Governor Kathy Hochul and under the leadership of Commissioner RuthAnne Visnauskas. The HCR umbrella encompasses the Housing Trust Fund Corporation ("HTFC"), as well as the New York State Division of Housing and Community Renewal, the New York State Housing Finance Agency, the State of New York Mortgage Agency, the New York State Affordable Housing Corporation, the Municipal Bond Bank Agency, and the Tobacco Settlement Financing Corporation.

HTFC was established by Chapter 67 of the Laws of 1985, specifically under Section 45-a of the New York Private Housing Finance Law, as a subsidiary public benefit corporation of the New York State Housing Finance Agency. HTFC's mission is to further community development through the construction, development, revitalization, and preservation of low-income housing, the provision of rental assistance to low-income New Yorkers, the development and preservation of businesses, the creation of job opportunities, and the development of public infrastructures and facilities. With the recent addition of the Office of Resilient Homes and Communities, HTFC's mission has expanded to further recovery, rebuilding, and resiliency efforts of homes, businesses, and public infrastructure and facilities in storm-affected counties throughout New York State. In fulfilling its mission, HTFC commits to advance Minority and Women Owned Business Enterprise ("MWBE") goals and fair housing goals.

This report is intended to present the basic operations of HTFC and highlight many of the accomplishments of HTFC over the fiscal year ending March 31, 2026. HTFC operates through broad offices of HCR including the program offices for community and economic development, affordable housing preservation, single and multifamily affordable housing financing and development, and resilient home and community development.

Accomplishments Overview

An overview of HTFC's fiscal year accomplishments across its programming, with the exception of the Office of Resilient Homes and Communities' programming which is set forth separately, is provided below and broken out into the following program areas:

- Office of Homeownership and Community Development
- Office of Housing Preservation and Sustainability
- Office of Multifamily Finance and Development
- Procurement

- Department of Empowerment, Compliance and Opportunity

Homeownership and Community Development

The Office of Homeownership and Community Development oversees the Office of Community Renewal, the Office of Small and Mid-sized Development, the Office of Resilient Homes and Communities, and a portfolio of other programs.

Office of Community Renewal
The Office of Community Renewal ("OCR") is responsible for a portfolio of grant programs that foster community and economic development, job creation, and downtown revitalization. This includes annual funding for programs, administered locally by municipal and not-for-profit partners, including Access to Home, Community Development Block Grants, NYS HOME Investment Partnership Program, Leading in Lead Prevention, NYS Mobile & Manufactured Housing Replacement, New York Main Street, RESTORE, the Rural & Neighborhood Preservation programs, and the Vacant Rental Program.

HTFC awarded over $200 million during this fiscal year through the Office of Community Renewal. These awards proposed to create or rehabilitate over 2,200 residential units; create or preserve 26 commercial units; create or retain over 150 jobs; and provide administrative support for 190 not-for-profit organizations.

In addition to its annual funding rounds, OCR administers additional programs including:

- Land Bank Initiative: Support for services and expenses of Land Banks in New York State. Funding has been provided to support Land Bank operations and fund environmental remediation, acquisition, demolition, and rehabilitation of distressed properties.
- Downtown Revitalization Initiative ("DRI"): In coordination with the NYS Department of State and Empire State Development, OCR administers DRI awards to projects that align with other OCR program areas.
- New York Forward ("NYF"): In coordination with the NYS Department of State and Empire State Development, OCR administers NYF awards to projects that align with other OCR program areas.
- Buffalo Main Streets Initiative: In coordination with Empire State Development, OCR administers awards through four rounds of the Better Buffalo Fund, a community development initiative funded by the Buffalo Billion.
- Targeted Home Improvement Program ("T-HIP"): Grants to support critical home repairs for low and moderate-income homeowners in targeted areas throughout the State.
- Department of Health Medicaid Resign Team ("MRT") funds: Supports an expanded Access to Home program for Medicaid recipients.
- JP Morgan Chase Settlement funds: Support for Access to Home for Heroes (Veterans).

Office of Small and Mid-Sized Development
The Office of Small and Mid-Sized Development offers several sources of financing for

affordable rental and homeownership projects. These include:

- Legacy City ACCESS Program: Offers financing for the rehabilitation of vacant homes for first time homebuyers in areas with historic disparities in access to homeownership.
- Manufactured Home Advantage Program (“MHAP”): Offers financing for the acquisition and improvement of manufactured home communities in need of infrastructure and other improvements to enhance residents’ quality of life.
- New York State Small Rental Development Initiative (“SRDI”): Offers financing to preserve and create high-quality affordable rental units through small rental development projects of 4-20 units.
- Plus One ADU Program: A program to support low- and moderate-income homeowners who want to create or legalize an Accessory Dwelling Unit on their property.
- Climate Change Mitigation and Adaptation Retrofit Program (“Resilient Retrofits”): A pilot program to support homeowners who are at risk of flooding (but who do not live in the 100-year flood plain) to make resiliency improvements to their homes.
- HOME ARP: Over $97 million in federal funds was allocated to the New York State HOME American Rescue Plan Program by the Department of Housing and Urban Development (“HUD”). The NYS HOME-ARP program is designed to create and preserve Rental Housing, Non-Congregate Shelter, and enhance Supportive Services.

Office of Resilient Homes and Communities

The Office of Resilient Homes and Communities (“RHC”), formerly the Governor’s Office of Storm Recovery (“GOSR”), administers disaster recovery and resiliency programs. In 2013, GOSR was created to coordinate statewide recovery efforts for Superstorm Sandy, Hurricane Irene and Tropical Storm Lee. In 2022, RHC was established as a permanent office within NYS Homes and Community Renewal.

RHC's disaster recovery programs include $4.6 billion in long-term recovery from Superstorm Sandy, Hurricane Irene, and Tropical Storm Lee. The majority of these grant funds have been expended and remaining projects are on track for completion. In the past year, RHC closed six historic audits and has begun to ramp up efforts on closeout of the grants.

RHC is also overseeing $68 million in disaster recovery funding for Hurricane Ida. Ida long term recovery programs include rehabilitation and resiliency upgrades for single family homes and multifamily housing, safe housing incentives and downpayment assistance for renters, and planning grants for local units of government. In the past year, RHC awarded planning grants for 24 projects and opened applications for the single family and multifamily rehabilitation programs. The renters program will be launching this summer.

As part of the Clean Air, Clean Water, and Green Jobs Environmental Bond Act, RHC will be implementing a $250 million statewide voluntary buyout program called Blue Buffers. RHC selected a non-profit subrecipient to administer the program and is in the process of identifying the areas in the State that are most in need of managed retreat based on statutory requirements like location in the 100-year flood plain and in “Disadvantaged

Communities" and a history of severe repetitive loss and repetitive loss. RHC plans on beginning outreach to priority communities later this year.

Housing Preservation

Through its Office of Housing Preservation ("OHP"), HTFC administers the programs that maintain and enhance the State's portfolio of existing affordable housing and administers programs to provide federal and State housing assistance to make housing affordable. OHP also administers programs including the Clean Energy Initiative, a program to provide Clean Energy Funds directly to developers who participate in either the 4% Bond Finance or 9% Competitive Low-Income Housing Tax Credit ("LIHTC") application rounds.

HTFC administers both tenant-based and project-based rental assistance through federal contracts for Section 8 Performance-Based Contract Administration ("PBCA") and Housing Choice Vouchers ("HCVs"). Furthermore, HTFC utilizes State funding to provide rental assistance to federally-financed rural properties through New York State's Rural Rental Assistance Program ("RRAP"). These programs complement HTFC's mission to build and preserve affordable housing by providing federal and State rental assistance primarily to very low- and extremely low-income households. Together, these three programs provide over $3 billion annually in Housing Assistance Payments.

New for this year, HTFC also began implementation of the New York State Housing Access Voucher Program ("HAVP"). The 2025 state budget allocated $50 million to this program, of which HTFC will receive $17.5 million to serve approximately 700 unhoused families in upstate New York and Long Island. Budget language required HTFC to begin issuing these vouchers by March 1, 2026 – or in just nine months. This required coordination with the State Office of Temporary Disability Assistance and the Department of Labor, as well as numerous local Departments of Social Services, Local Administrators, etc. Despite numerous logistical challenges, HTFC began issuing vouchers two weeks early in mid-February and began leasing up families soon after.

Section 8 Performance-Based Contract Administration

HTFC is the only Public Housing Authority in New York with a state-wide portfolio. Through a PBCA contract with HUD, HTFC administers rental assistance and provides oversight for the country's largest Section 8 multi-family, project-based portfolio, which includes 974 contracts with 101,958 units. HTFC utilizes a unique public-private partnership to monitor compliance and respond effectively to landlord and tenant issues. It also leverages federal and State resources to help preserve affordability. HTFC established the Preservation Weatherization Plus (P+) initiative to improve health, safety, and energy efficiency in multi-family properties. As part of this initiative, HTFC has allocated $7 million in corporate resources to upgrade targeted properties in the PBCA portfolio, working closely with HUD's New York City multi-family office. To date, four projects have been completed and two more will finish soon. Virtually all P+ funds have been obligated or disbursed. This year, HTFC embarked on a new initiative to encourage participation in the Family Self-Sufficiency ("FSS") program in PBCA properties. Four owner/agents with 11 properties have been selected to participate in a unique, first-time pilot to provide technical assistance and seed funding to start new FSS programs for low- income tenants.

HTFC administers approximately 43,000 Section 8 HCVs that can be used to lease apartments in the private sector, enabling qualifying families to secure housing. A percentage of HTFC's allocation is converted to Project-Based Vouchers ("PBVs"). HTFC also administers Veterans Affairs Supportive Housing ("VASH"), Mainstream 5, and Non-Elderly Disabled vouchers.

HCV services outside of New York City are delivered by a network of community-based Local Administrators ("LAs"). A new technology solution, Emphasys Elite, was implemented in October 2023 to modernize the program and offer a new level of service and accessibility to tenants and landlords. Additional features have been implemented, including new portals for applicants and participants, with additional features for accounting and data analytics now on the way.

In the years after the pandemic, HCR was among the leaders nationally in increasing voucher utilization for large public housing authorities. HCR is now fully utilizing its federal budget authority and is not issuing additional vouchers. HCR staff are monitoring the ongoing federal budget discussions to understand the implications for the HCR Housing Choice Voucher Program as well as the Emergency Housing Voucher program. HCR will seek to absorb EHV families into the larger HCV program later this year when federal funding for EHV expires per recent HUD directives.

HTFC has become a leader nationally in supporting efforts to expand housing mobility across the State. HTFC has supported a successful mobility counseling program in Westchester County for several decades. HTFC has expanded this work by partnering with Enterprise Community Partners ("Enterprise") to support additional mobility programs in Erie, Nassau, Suffolk, Dutchess, Orange, and Tompkins Counties through the Making Moves Program. This year HTFC added programs in Onondaga and Monroe Counties. Approximately 1,300 families are currently being assisted in locating new housing.

Rural Rental Assistance Program

Additionally, HTFC works closely with the U.S. Department of Agriculture's Rural Development Office to provide State-funded rental assistance through RRAP to 247 properties with 5,046 units located across rural regions of the State. These properties often represent the only quality affordable housing available in these communities and New York is the only state that provides rental assistance to these federally-assisted properties.

Public Housing Modernization and Public Housing Drug Elimination Funds

The Public Housing Modernization ("PHM") and Public Housing Drug Elimination ("PHDE") Programs provide targeted capital grant funding to New York State-supervised Public Housing Authorities ("PHAs") that are not eligible for federal operating subsidies and face funding gaps for capital repairs and infrastructure needs.

For the 2025–2026 fiscal year, HTFC appropriated:

- $6 million to the PHM Program for comprehensive modernization efforts.
- $400,000 to the PHDE Program to enhance safety and security infrastructure.

Administered by HCR, these programs support a portfolio of eight (8) State-supervised PHAs managing 16 developments comprising 1,746 dwelling units and serving approximately 3,183 residents.

Strategic Focus and Funding Priorities:

The portfolio framework is evolving beyond transactional contract tracking toward a stabilization-oriented model designed to support strategic capital stewardship. Modernization planning is developed collaboratively with Public Housing Authorities, consultants and agency stakeholders. IPNA / IPNE-informed capital needs assessments help identify targeted rehabilitation scopes and funding priorities.

The integration of the Sustainability Unit has expanded modernization scope analysis and supported more targeted and strategic investments related to building performance, resiliency, sustainability measures, energy-related upgrades, and long-term efficiency.

HCR's PHM modernization initiative emphasizes long-term, sustainable investment in State-aided public housing. The agency prioritizes PHM applications that:

1. Conduct comprehensive capital needs assessment
2. Present sustainable, long-term redevelopment modernization strategy
3. Leverage additional funding sources, including State, local, and federal grants, LIHTC, and private financing

The State-supervised Public Housing portfolio continues to reflect broader modernization, redevelopment, and restructuring activity with an increased use of comprehensive rehabilitation strategies, layered financing structures, phased redevelopment implementation, and broader public / private capital coordination.

Recent modernization activity includes:

- Buffalo Municipal Housing Authority- Marine Drive Apartments redevelopment activity involves phased mixed –income rehabilitation and replacement of existing 616 units with approximately 700 new apartments, a net increase of 84 units.
- Tonawanda Housing Authority- Hillview Commons is replacing aged Jacob J. Guzzetta senior complex with 52 new senior affordable units.
- Kingston Housing Authority – The Phase II redevelopment plan is comprised of rehabilitating Colonial Gardens: 98 units, Wiltwyck Gardens: 60 units and the demolition of Penn Court; 32 non-ADA compliant studio units, to be replaced by an 80-unit ADA compliant building.
- Little Falls Housing Authority- Phase I of a two-phased redevelopment project includes the new construction of a 44-unit Senior development.

Impact and Outcomes:

New York State Homes and Community Renewal continues to align modernization funding with long-term preservation, stabilization, and redevelopment objectives across the State-supervised portfolio.
Current redevelopment activity is advancing the redevelopment of 1359 dwelling units through strategic public-private partnerships while maintaining housing stability for 2399 residents.

All assets identified for redevelopment or repositioning remain active within the long-term PHM preservation pipeline and are not excluded from ongoing modernization funding. While PHM and PHDE funding and activity addresses critical physical, mechanical, health, safety and sustainability needs, modernization funding also supports the broader financing framework or redevelopment or development plans.

These efforts not only preserve the physical integrity of public housing assets but also improve the residents' quality of life and safety. The programs serve as a model for how State-aided housing can be revitalized through targeted public investment and strategic private-sector engagement.

Sustainability

In fiscal year 2022-23, Commissioner Visnauskas participated as a member of the Climate Action Council ("CAC"). The CAC developed a set of recommendations called the "Scoping Plan" that define a comprehensive set of recommendations that will help New York State reach the Climate Leadership and Community Protection Act ("CLCPA") goals of 40% carbon emissions reduction, compared to 1990 levels, by 2030, and 85% reduction by 2050.

Furthermore, HCR created, released, and continues to maintain, Sustainability Guidelines, an extension of the current Design Guidelines. The Sustainability Guidelines are posted in two parts: a New Construction booklet, applicable for all new ground-up construction, and the Existing Buildings booklet, applicable to all adaptative reuse, substantial renovation, or moderate rehabilitation projects receiving LIHTC from either the 4% bond or 9% Competitive Tax Credit Programs. The New Construction Sustainability Guidelines require all-electric, high-performance building design standards applicable to all projects. The Existing Buildings booklet requires attention to renovating towards all-electric and high-performance standards but does not require full electrification. These new guidelines align with the CAC Scoping Plan recommendations and position HTFC's developers to be in compliance with future rulemaking.

The Sustainability Unit operates four programs to help align the Agencies' operations with the goals of the reducing and stabilizing operating costs and complying with the State's Climate goals. These programs are detailed below.

Sustainability Programs

Clean Energy Initiative: Through a collaboration with the New York State Energy Research and Development Authority ("NYSERDA"), and under HTFC, HCR created the $100 million Clean Energy Initiative Program ("CEI") to provide gap funding directly to developers who participate in either the 4% Bond Finance or 9% Competitive LIHTC application rounds. In the last fiscal year, HCR successfully deployed all New Construction funds. CEI continues to fund Existing Buildings (up to $37,500/unit). CEI projects require compliance with HCR's Sustainability Guidelines' stretch goals. This fiscal year, the CEI program awarded over 651 units, or $22 million dollars to eligible projects, awarding all $100 million dollar of funds from NYSERDA's initial award, and completing a total of 89 projects. NYSERDA is providing an additional $66.6 million of funding to continue operating the Clean Energy Initiative Program through 2030.

Weatherization: HCR's Weatherization Assistance Program ("WAP") is a core sustainability program and has made significant investments in energy efficiency retrofits for affordable homes, with tens of millions of dollars in estimated energy savings. These investments impact not only the operational and fiscal health of the low-income residential units, but also the health and safety of the residents living within those units. Along with standard formula WAP, the team has continued to deploy an additional $144 million in funding through the US Department of Energy's Bi-Partisan Infrastructure Law ("BIL") stimulus program, with an additional $144 million funding increase, when the program reaches 30% production goals. BIL funds have been issued by the existing network of 49 Weatherization Subgrantees (or community action agencies) and will expand the capacity of the network through 2029. With the addition of BIL funding, WAP could serve an extra 8,900 units over this two-year program term. The homes, both single family and multifamily, will help reach the State's goal of two million Climate Friendly Homes, part of the CAC goals for decarbonization.

Climate Friendly Homes Fund: The Climate Friendly Homes Fund ("CFHF"), was launched in January 2023 with $250 million in State bonded capital as part of the fiscal year 2023 budget. HTFC has been partnering with the Community Preservation Corporation to deploy the CFHF with a goal to decarbonize at least 4,000 units and up to 5,000 units before April 2027. The program is currently accepting applications for eligible multifamily properties either regulated by an affordable housing agency or located in a Disadvantaged Community ("DAC") within New York State. In the last fiscal year, HCR has expanded access to the Climate Friendly Homes Fund, through the launch of two additional HCR operated programs, the Stand-alone Clean Energy Initiative ("SCEI") and the All-Electric Multifamily Program ("AMP"), with a goal to decarbonize at least 4,000 units, totaling at least 10,000 units for electrification across all three programs. These three programs have awarded more than 2,500 units of funding to date, with more than 4,000 units in the scoping and design phase.

Multifamily Solar Fund Program: The Multifamily Solar Fund is another partnership program with NYSERDA, with a $5 million allocation from NYSERDA. Solar funding sources and technical support, via a Solar Screening Tool (SET) will be added to existing HCR-funded programs that construct and preserve affordable housing across New York. Like HCR's Clean Energy Initiative program model, funds will be deployed directly to existing pipelines of regulated and subsidized affordable housing. HCR will deploy unique strategies for each housing type to maximize energy savings and solar benefits for the residents and owners.

Financing and Development of Multifamily Housing

Through its Office of Finance and Development, HTFC administers programs that fund the development and preservation of quality affordable rental housing including the Low-Income Housing Trust Fund Program, Senior Housing Program, Public Housing Preservation Program, Rural and Urban Community Investment Fund, Middle Income Housing Program, Supportive Housing Opportunities Program, and the Federal Housing Trust Fund Program.

In the past fiscal year, through the Office of Finance and Development, HTFC has made multifamily development awards totaling over $217 million which have leveraged approximately $70 million in private and public investment. These awards spurred nearly $1 billion in affordable housing and community renewal investment throughout the state and assisted in the creation or rehabilitation of 1,935 units of affordable housing. Many of the projects receiving HTFC financial support represent coordinated investments with State agency partners including the Office of Mental Health, Office for Persons with Developmental Disabilities, Empire State Development Corporation, the New York State Energy Research Authority, and the Office of Temporary and Disability Assistance.

Department of Empowerment, Compliance and Opportunity

HTFC submits its MWBE participation accomplishments and goals pursuant to Article 15-A of the Executive Law which is reviewed by the Empire State Development agency ("ESD") after the State's fiscal year end. Accordingly, HTFC's MWBE participation accomplishments and goals for fiscal year 2025-2026 are still under review by ESD at the time of this report.

HTFC continues to work toward fulfilling its mission, and partner with internal and external stakeholders in efforts to serve the community to the best of its ability, while prioritizing State objectives in ensuring sustainable efforts and increasing MWBE participation across all program areas.

Procurement

Through the Office of Professional Services, Procurement and Contract unit staff endeavor to adhere to professionalism, integrity, transparency and accountability, and the promotion of fair competition in procurement processes.

Material Changes in Operations and Programs

In Fiscal Year 2025-2026, the following changes to the Corporation’s senior staffing occurred:

- Dina Levy resigned as Senior Vice President of Homeownership and Community

Development.

ACCOMPLISHMENTS OVERVIEW: CHART OF HTFC FINANCING PROGRAMS

HTFC Program	Amount Awarded	Amount Leveraged	Proposed Housing Units, Jobs or Businesses Created/Preserved and Households or People Assisted*	Program Description
Access to Home	$4,984,000	NA	220 Residential Units	Funds accessibility modifications in homes for low and moderate- income individuals living with disabilities.
Access to Home for Heroes/Veterans	$2,215,000	NA	82 Residential Units	Funds accessibility modifications, emergency home repairs, or address code violations in homes of low- and moderate-income veterans with disabilities.
Access to Home for Medicaid Recipients	$1,490,000	NA	70 Residential Units	Funds accessibility modifications for low- and moderate-income individuals receiving Medicaid and living with a disability.
Community DevelopmentBlock Grant (“CDBG”)	$76,984,299	$120,907,450	411 Residential Units 158 Jobs 84,258 people (infrastructure/facilities)	Federal funding for cities, towns, villages, and counties to assist low- and moderate-income communities, households, and people.
Clean Energy Initiative (“CEI”)	$1,075,000	$48,156,641	50 Residential Units	Funds highly efficient all-electric retrofits for existing and historic buildings.
Climate Friendly Homes Fund (“CFHF”)	$27,583,559	$22,151,435	1368 Residential Units	Funds for existing buildings to replace older and less energy-efficient systems with all-

				electric, high-performance heating, cooling, and hot water heating systems.
Leading in Lead ("LEAD")	$19,509,511	N/A	461 Residential Units	Funds lead remediation hazards in rental units in communities of concern throughout the State.
HOME Investment Partnership – Local Programs	$32,881,699	$25,017,863	271 Residential Units 558 Households – Rent Assistance	Federal funds to expand the supply of decent, safe, and affordable housing within the State.
Legacy City ACCESS Program	$900,000	$705,883	6 Residential Units	Funds for small developers who have the capacity to take title to and renovate vacant properties, creating new opportunities to promote affordable homeownership for underserved families, particularly first-time homebuyers of color.
Mobile & Manufactured Home Replacement ("MMHR")	$3,380,000	NA	33 Residential Units	Assists low- and moderate-income homeowners replace dilapidated mobile or manufactured homes on land owned by the homeowner with a new manufactured, modular, or site-built home.
Neighborhood & Rural Preservation Programs	$26,850,000	$8,860,50	Administrative support for190 organizations	Provides administrative funds to support community-based not-for-profit corporations known and Neighborhood and Rural Preservation Companies.

New York Main Street ("NYMS")	$4,200,000	$8,374,131	22 Residential Units 26 Commercial Units	Provides funds to units of local government and not-for-profit organizations that are committed to revitalizing historic downtowns, mixed-use neighborhood commercial districts, and village centers.
RESTORE - Residential Emergency Services to Offer (Home) Repairs to the Elderly	$3,996,000	N/A	200 Residential Units	Funds to assist senior citizen homeowners with the cost of addressing emergencies and code violations that pose a threat to their health and safety or affect the livability of their home.
Vacant Rental Program ("VRP")	$40,000,000	NA	528 Residential Units	Provides grant funds to units of local government and not-for-profit organizations to help property owners bring vacant rental units back into productive use.
Rural Rental Assistance Program	$21,710,000	N/A	N/A	Provides direct rent subsidies to project owner for low-income elderly and family tenants living in Rural Development-financed projects.
Section 8 Housing Choice Voucher	$783,921,444	N/A	43,540 Vouchers	Federal funds to help low-income families afford decent, safe, and sanitary housing in the private market.
Section 8 Project Based Contract Administration	$2,202,699,905	N/A	N/A	Enables low-income families to rent decent, safe, and affordable housing.
Preventative TroubledAsset Program	$2,500	N/A	36 Residential Units	Funds critical and emergency repairs to existing affordable housing developments finance by and

				covered under a current regulatory agreement or supervision by HCR.
Rural and Urban Community Investment Fund	$10,514,342	$229,825,205	584 Residential and/or Commercial Units	Funds the creation of commercial, retail, and community facilities that serve the needs of affordable housing residents and the community.
Low Income HousingTrust Fund	$43,000,000	$268,943,019	622 Residential Units	Funds to construct low-income housing or rehabilitate vacant, distressed, or underutilized residential property.
Senior Housing Program	$12,252,462	$84,998,287	204 Residential Units	Funds the new construction rehabilitation, or acquisition of properties to be developed into senior housing.
Supportive Housing Opportunities Program	$65,000,000	$404,381,800	796 Residential Units	Funds the development of affordable supportive housing with on-site supportive services.
HOME Investment Partnership - Multifamily Capital	$2,290,245	N/A	10 Residential Units	Funds hard costs and acquisition-related soft costs for affordable and supportive housing.
HOME-ARP	$10,000,000	$107,531,461	226 Residential Units	Federal funds to create and preserve rental housing, non-congregate shelter, and enhance supportive services for qualifying populations.
Public Housing Program (“PHP”)	$10,000,000	$48,190,363	104 Residential Units	Funds to address capital needs of public housing.
Public Housing Modernization Program (“PHM”)	$0	N/A	1746 Residential Units	Funds the preservation and modernization of public housing.
Public Housing Drug Elimination (“PHDE”)	$950,000	$200,000	1839 Residential Units	Funds security and safety systems in State-aided public

				housing.
New Construction Program ("NCP")	$326,000,000	$158,139,376	295 Residential Units	Funds the new construction or adaptive reuse of affordable rental housing.
Multifamily Solar Program ("MFS")	$716,324	$99,608,303	223 Residential Units	Funds to support addition of solar arrays to multifamily affordable housing.
Small Rental Development Initiative ("SRDI")	$15,216,007	$17,000,053	85 Residential Units	Funds for services and expenses of small rental developments with 5-20 units.
Manufactured Home Advantage Program ("MHAP")	$8,500,000	$2,608,254	98 Residential Units	Funds the rehabilitation of manufactured home communities in the State.
Sandy, Irene, and Lee CDBG Disaster Recovery ("CDBG-DR")	$4.57 billion	N/A	19 Community Restoration Projects Completed	Funds the long-term recovery from Sandy, Irene, and Lee.
Ida CDBG-DR	$68,228,000	N/A	24 Planning Projects Awarded	Funds the long-term recovery from Ida.

*The amount leveraged and assistance reported reflects estimated numbers proposed forassistance in awarded projects. The amount leveraged and impact for projects receiving more than one source of HTFC financing may be duplicated. Accomplishments are estimated and confirmed at project/contract completion.
