RE: FY 2024-2025 Housing Production Goals Report

Section 32(14) of P.A. 346 of 1966 requires the Michigan State Housing Development Authority (MSHDA) to provide the Governor and the appropriate legislative committees with an annual report on housing projects financed by the Authority. This document represents an assessment of FY 2025 production and the Authority's goals for FY 2026. It also addresses the boilerplate reporting requirements in Section 401 of Public Act 119 of 2023 and Section 403 of Public Act 22 of 2025. Please note that the Authority's 2025 fiscal year ran from July 1, 2024, through June 30, 2025.

In fiscal year 2024-2025, MSHDA's total investment in housing for low- and moderate-income Michiganders was \$2.610 billion, serving nearly 45,000 households. MSHDA contributed \$2.193 billion in funding toward home mortgages or newly constructed, rehabilitated, and financed units of housing, resulting in 10,569 new, improved, or newly owned units; \$287 million in rental assistance; \$28.8 million in Homeless Prevention grants; \$50.7 million in Neighborhood Development grants, and \$49.8 million in Housing Solutions grants. Across all programs, MSHDA surpassed its goal by producing or financing the rehabilitation or purchase of 12,414 housing units, nearly 2,000 more than the FY's goal. Goals for individual programs and divisions are noted in the following pages of this document.

EXECUTIVE SUMMARY

The Michigan State Housing Development Authority (MSHDA) serves the people of Michigan by partnering to provide quality affordable housing solutions in support of diverse, equitable, thriving communities. We are working to make Michigan a place where all people have quality affordable housing as a foundation to reach their full potential.

In fiscal year 2024-2025, MSHDA's total investment in housing for low- and moderate-income Michiganders was \$2.610 billion, serving nearly 45,000 households. MSHDA contributed \$2.193 billion in funding toward home mortgages or newly constructed, rehabilitated, and financed units of housing, resulting in 10,569 new, improved, or newly owned units; \$287 million in rental assistance; \$28.8 million in Homeless Prevention grants; \$50.7 million in Neighborhood Development grants, and \$49.8 million in Housing Solutions grants. Across all programs, MSHDA surpassed its goal by producing or financing the rehabilitation or purchase of 12,414 housing units, nearly 2,000 more than the FY's goal. Goals for individual programs and divisions are noted in the following pages of this document.

Investment in Housing for Low- and Moderate-Income Michiganders	Households Served	Dollars Invested
	44,873	\$2,609,735,303
MSHDA Production - Multifamily Rental Development	Units	MSHDA Dollars

FY 2024-2025 Goal	\$350,000,000	2,900	
FY 2024-2025 Production	\$160,516,518	1,290	\$312,687,416
FY 2025-2026 Goal	\$350,000,000	2,300	

Missing Middle Production Goal Achievement	Missing Middle Grant Dollars	Units	TDC
FY 2024-2025 Goal			
FY 2024-2025 Production	\$38,800,000	478	\$139,410,761
FY 2025-2026 Goal	Funding for the Missing Middle Program has been fully awarded. There are currently no planned funds for FY 2025-2026.		

Employer-Assisted Housing Fund Production Goal Achievement ¹	EAHF Matching Dollars	Units	TDC
FY 2024-2025 Goal			
	Development Grant Dollars	Units	
	\$4,500,000	380	\$94,433,521
FY 2024-2025 Production	Downpayment Assistance Dollars	Households	
	\$890,000	57	
	Rent or Mortgage Subsidy Dollars	Households	
	\$500,000	42	
FY 2025-2026 Goal ²	\$4,610,000		

Housing TIF (H-TIF) Lending	Loan and Grant Dollars ³	Units	TDC
FY 2024-2025 Goal			
FY 2024-2025 Production	\$9,300,000	50	\$20,946,727
FY 2025-2026 Goal			

MSHDA approval is needed for H-TIF projects, but not all H-TIF projects receive MSHDA funding. In FY 2025, MSHDA approved 28 H-TIF projects, none of which received MSHDA funding. One project approved in FY 2024 received MSHDA funding in FY 2025; only this project is reflected in the dollars and units reported above. At the time of application, FY 2025 H-TIF projects included a mix of rental and for-sale housing units with estimated Total Development Costs of \$528,870,688, totaling 1,950 units, of which 927 are limited to households earning less than 120% of the Area Median Income. Since H-TIF projects may require further approvals and subsidies after MSHDA’s initial review, they are not guaranteed to proceed to construction, and may change significantly after MSHDA approval, H-TIF projects without MSHDA funding are not included in MSHDA production totals.

Multifamily Loan Programs Loan Refinancings ⁴	Dollar Amount of Refinanced Loans	Number of Refinancings
	\$184,065,065	15

Obstacles Encountered
MSHDA's development of housing for low- and moderate-income persons encountered several significant obstacles. Closings were delayed due to external issues, including holdups at HUD and other federal funding sources, as well as complications with environmental reviews. Additional setbacks arose from prolonged timelines with multiple funding partners. Rising construction costs further created funding gaps, making it difficult to maintain financial feasibility and move the projects forward.

Economic and Social Benefits to Neighborhoods, Municipalities, and the State				
Economic	Neighborhoods		Municipalities	
	Stabilizes housing markets, ensuring long-term affordability for residents; retains residents; reduces displacement pressure; attracts public and private investment; supports local business by increasing consumer spending; generates construction and property management jobs		Expands local tax base (even with PILOTs), generates economic activity during construction and ongoing operations, reduces municipal costs tied to housing instability, attracts and retains employers by ensuring a stable local workforce that can afford to live in the community	
	Social		Fosters diverse, inclusive communities; strengthens neighborhood ties; reduces homelessness and housing instability; contributes to more resilient, vibrant, and equitable neighborhoods	
Estimated Jobs, Wages, & State Taxes ⁵	Estimated Construction Jobs	Estimated Permanent Jobs	Estimated Wages	Estimated Taxes
	7,858	445	\$500,132,880	\$21,255,647

Displacement Impact
The Authority requires, as part of the underwriting process, that relocation planning be performed and implemented in any situation where prepayments of federally or MSHDA assisted loans would result in the displacement of lower income people. The Authority avoids approval of loans where such displacement cannot be adequately addressed. In the time since the prior report, no allowed prepayments have resulted in tenant displacement.

Tenant Demographics				
Race	Percentage	Average Age	Average Income	Household Size
Asian	0.8%	72.3	\$13,845	1.55

Black/African American	35.6%	52.3	\$18,365	1.63
Black/African American & White	1.1%	46.0	\$18,935	1.91
Chooses not to Disclose	23.4%	55.9	\$21,237	1.52
Other	1.3%			
Other Multi-Racial	1.2%	50.9	\$21,842	1.80
White	36.7%	58.7	\$20,181	1.45
Overall Average		55.6	\$19,739	1.54

Low-Income Housing Tax Credit Program (LIHTC)			
In calendar years 2024 and 2025, each state was allocated \$2.90 and \$3.00 per capita, respectively, in 9% credits from the Internal Revenue Service. The amount of credits allocated per state is based on Decennial Census data; Michigan’s population reported in the Decennial Census was 10,077,331; resulting in 9% tax credits of \$29,224,260 and \$30,231,993 for calendar years 2024 and 2025, respectively. States can also carry any unallocated tax credits forward for one year. 4% LIHTC is not capped; instead, its availability depends on the state's volume cap for tax-exempt private activity bonds (PABs).			
9% LIHTC Allocations	Oct 2024 Round	April 2025 Round	Total
Credit Allocation	\$17,332,458	\$14,115,850	\$31,448,308
10-Year Credit Amount	\$173,324,580	\$141,158,500	\$314,483,080
Estimated Equity Generated	\$150,054,829	\$121,818,731	\$271,873,560
Average Equity Price	\$0.87	\$0.86	\$0.86
Total Development Cost Leveraged by 9% LIHTC	\$208,510,394	\$171,186,223	\$379,696,617
9% LIHTC Units Created	647	484	1,131
Non-LIHTC Units Created	1	5	6
4% LIHTC Allocations	Pass-Through Projects	Direct Lending Projects	Total
Credit Allocation	\$12,988,589	\$26,033,566	\$39,022,155
10-Year Credit Amount	\$129,885,890	\$260,335,660	\$390,221,550
Estimated Equity Generated	\$109,089,754	\$220,831,271	\$329,921,025
Average Equity Price	\$0.84	\$0.85	\$0.85
Total Development Cost Leveraged by 4% LIHTC	\$312,687,416	\$619,048,360	\$931,735,776
Projects Receiving Tax Credits & Geographical Distribution of Tax Credits			
See Multifamily Rental Development Exhibit 1. FY 2024-2025 Projects Receiving 9% LIHTC Allocations, Exhibit 2. FY 2024-2025 Projects Receiving 4% Allocations, and Exhibit 3. FY 2024-2025 Map of 4% and 9% LIHTC Allocations			
Reasons for Denial of Tax Credits			
Projects were denied credits due to insufficient points earned in the Qualified Allocation Plan (QAP) or due to not meeting program threshold requirements. See Multifamily Rental Development Exhibit 4. FY 2024-2025 Reasons for Denial of Tax Credits for specific reasons for each individual project denied credits in the October 2024 and April 2025 9% LIHTC competitive rounds.			
Amendments to the Allocation Plan			
See Multifamily Rental Development Exhibit 5. FY 2024-2025 Changes to QAP			

1. The Employer-Assisted Housing Fund is a new pilot program intended to raise MSHDA’s affordable housing production and goals.
2. The production goal for the Employer-Assisted Housing Fund is to commit/award the remaining funds allocated to the program.
3. Bellaire Lofts received a \$6.8M MSHDA HTIF MRF Loan and \$2.5M MSHDA HCDF-SLFRF Grant.
4. The dollars and unit counts for these refinancings are accounted for in the Direct Lending section above.
5. Estimates based on extrapolation of sponsor-reported permanent and temporary jobs created for 9% LIHTC projects and 2023 ACS data for wages in construction and housing maintenance industries; this is a change in methodology from previous reports.
- *Further reporting requirements: Michigan citizens use multifamily rental programs in two primary ways. First, income-qualified Michiganders rent units with income and rent limits tied to area median income in developments that include LIHTC units. Second, Michigan-based developers apply for these programs to fill financing gaps in their capital stacks in exchange for providing income- and rent-restricted units. These programs are also available to non-Michigan developers building in the state.

Exhibit 5. FY 2024-2025 Changes to QAP for 2026-2027

The Low-Income Housing Tax Credit (LIHTC) program has long been one of the most impactful resources that Michigan has for developing affordable rental housing. As statewide housing needs and priorities evolve, so does the Qualified Allocation Plan (QAP), which sets the guidelines and priorities for the LIHTC program. MSHDA drafted changes to the QAP to reflect these priorities throughout FY 2024-2025, with the final 2026-2027 QAP receiving MSHDA's Board approval in June 2025 and Governor Whitmer's approval in July 2025.

The 2026-2027 QAP includes new initiatives that align with recent significant progress that has been made in Michigan's statewide housing policy.

These new initiatives are described in further detail below and cover the following topic areas:

- 1. Job Growth Opportunities: Creating affordable housing around new Job Centers**
- 2. Community Supported Initiatives: Alignment with local housing policy**
- 3. Tribal Housing: Alignment of Tribal Housing policies with Tribal Housing needs**

To address these focus areas, several changes have been implemented throughout the QAP, scoring criteria, and accompanying program documents. Following is a list of the more significant revisions to the 2026-2027 Qualified Allocation Plan, scoring criteria, and other related policies; it is not intended to be all-encompassing. Therefore, in addition to reviewing this list, stakeholders are encouraged to review all of the program documents in their entirety to gain a full understanding of the policies and program requirements contained within them.

JOB GROWTH OPPORTUNITIES: CREATING HOUSING AROUND NEW JOB CENTERS

According to the Bureau of Labor Statistics and Builder Permits Survey from the US Census Bureau, between 2014 and 2023, the United States produced one (1) new housing unit for every six (6) new jobs. In Michigan that ratio was much worse – we created one (1) new housing unit for every fourteen (14) new jobs created. This is a ratio that is unsustainable for real growth in Michigan.

In February of 2025, MSHDA launched the Employer-Assisted Housing Fund (EAHF), designed to provide employers with an easy entry-point to begin investing in housing for the local workforce. The EAHF provides MSHDA matching funds to large and small employers that are committed to investing in various forms of housing.

Further, the Bureau of Labor Statistics (BLS) also recently reported that in 2022 the median wage for the “Top 5” occupation groups is below \$40k per year. This means that for those new jobs, a rent of about \$1,000 per month is necessary for household to NOT be “housing burdened.”

Building on the goals of the EAHF, the 2026-2027 QAP includes “Job Growth Opportunities” points for projects that are located within 15 or 25 miles of significant economic development projects funded by the Michigan Economic Development Corporation. This not only aligns new affordable housing with new jobs, but also further aligns the work being done across state agencies.

COMMUNITY SUPPORTED INITIATIVES: ALIGNMENT WITH LOCAL HOUSING POLICIES

In June of 2022, Michigan released its first-ever Statewide Housing Plan as a bold response to the state’s affordable housing crisis. Fifteen Regional Housing Partnerships were established to assist with the implementation of the Plan, as well as develop regional action plans – each with regional priorities. A hallmark of the Statewide Housing Plan and its implementation is recognizing that each community has individualized local needs and alignment of state and local partners is critical to meeting those needs most productively.

Recognizing this, the 2026-2027 QAP includes “Community Supported Initiatives” points for projects that align with local initiatives and utilize place-based developers. Developments located or developed in accordance with local unit of government approval, through a community-supported development plan, request for proposal, and/or other specific project alignment with community programming will be eligible for this point item.

Additional points will be available for developments that include a place-based developer with at least 25% ownership in the development.

These new criteria will identify and promote developments and developers that are directly responsive to the unique and documented housing needs of the local community.

TRIBAL HOUSING: ALIGNMENT OF TRIBAL HOUSING POLICIES WITH TRIBAL HOUSING NEEDS

In 2024, in anticipation of the upcoming QAP changes, the United Tribes of Michigan, on behalf of its members and the future of tribal housing in Michigan, requested that MSHDA honor a request for Consultation on the QAP in which the Michigan Tribes are afforded a meaningful opportunity to advocate for change leading to implementation of a fair and equitable process that recognizes the unique housing needs of Tribal communities as well as the capacity of the Michigan Tribes to successfully administer LIHTC projects.

In the following months, MSHDA staff and representatives from various Michigan Tribes participated in multiple formal Consultation meetings to discuss the QAP and its policies. MSHDA staff deeply appreciated this opportunity as it highlighted some significant deficiencies with past QAP policies and opportunities for changes to future QAP policies.

As a result of this process, the QAP has a new Tribal Housing definition that is directly responsive to the feedback received from Michigan Tribes during their Consultations. This new definition of Tribal Housing requires that a Tribe or tribally owned entity must be a general partner or managing member of the LIHTC applicant/owner and must have at least 75% ownership. The new definition further requires that the development must be on lands held by the Tribe, the tribally designated housing entity, or tribally owned entity in fee or restricted fee; or lands held in trust by the United States of America for the benefit of the Tribe.

MSHDA staff believe this new Tribal Housing definition will focus resources on those Tribal Housing projects that best align with the needs that were identified by the Tribes in the Consultations, while also continuing to allow tribally owned economic development entities to participate in projects and be competitively awarded based on score.

HOMEOWNERSHIP

Offering mortgages with competitive interest rates, connections to homebuyer education and counseling, and up to \$25,000 in down payment assistance.

FY 2024-2025 Households Assisted and Dollars Invested toward Homeownership in Michigan				5,555	\$790,992,090

Obstacles Encountered						
Obstacles encountered during the year were still a large number of cash buyers in the market making it difficult for first-time homebuyers to compete at certain price points in the market. While we have made significant progress in improving our turn times and reputation with our lender partners, there is still work to be done with winning over more realtors and having them support our programs or buyers who may be using MSHDA programs to obtain their financing. With more and more DPA programs being available now you have buyers who are bidding and competing against each other with different DPA programs hoping to win the home. This further shows the lack of affordable homes. Increases in homeowner insurance premiums and property taxes can make a once affordable home unaffordable.						
Economic and Social Benefits to Neighborhoods & Municipalities						
Neighborhoods			Municipalities			
Economic	Increased property values, stimulated local economies, job creation, and reduction in blight and vacancy.			Stabilized or growing property tax base, reduction in publicly owned or maintained properties.		
Social	Increased community stability, improved property maintenance, lower crime rates, social cohesion, and demographic diversity.					
Displacement Impact						
No activities within MSHDA's Homeownership division directly resulted in any displacement of low- or moderate-income Michiganders.						
Private Lender Reinvestment Activities						
MSHDA provides funds to private mortgage lenders through the purchase of MI Home Loan mortgages originated by private lenders; MSHDA does not originate any loans in-house. The private lenders are then able to fund future mortgages with the proceeds from the sale of MI Home Loans to MSHDA. MSHDA does not have data on specific dollar amounts reinvested.						
Homeowner Demographics			Loans		DPA	MCC
Average Household Size			1.94013346

			Declined to Answer	8.2%	8.2%	
Single-Family Mortgage Loan Refinancings						
MSHDA does not offer refinance transactions for owner-occupied homes, as they are not an allowable transaction type under Internal Revenue Service Mortgage Revenue Bond rules.						
Education and Training Opportunities						
The Homeownership Division’s Housing Education Program (HEP) partnered with 29 HUD-approved housing counseling agencies to deliver 9,096 housing counseling and education services across Michigan in FY24/25. These services were supported through a combination of funding sources, primarily MSHDA general operating income and HUD Housing Counseling grants. MSHDA HEP’s network of agencies empowered individuals and families through homebuyer education, support for those at risk of losing their homes to mortgage or tax foreclosure, and practical tools for budgeting and managing money. They stood alongside homeowners and renters during natural disasters, offering critical guidance in times of crisis. Counselors helped people experiencing homelessness find stability, with many moving toward homeownership success stories. Services also raised awareness about predatory scams, student loan challenges, and unfair lending practices—equipping clients to make informed, confident decisions for their future. For a full description of each service area and additional program details, please visit the MSHDA Housing Education Program webpage.						
Mobile Home Parks and Mobile Home Condominiums						
Where the manufactured housing is considered real property, the Authority has financing available to qualified purchasers. If the home and the lot are both owned by the borrower, MSHDA has financing options. If the home and the lot are both rentals, MSHDA also has programs available to support these rentals. The Authority also further expanded its offerings in FY 2024 to include the financing of single-wide manufactured homes to accompany the already approved multi-wide manufactured home loans. The production volume of manufactured housing units of these types is accounted for within the Homeownership and Rental Development sections of this report, where appropriate.						
Loans to Mortgage Lenders						
Section 44b(11) requires the Authority to submit a report to the Governor and the Legislature on its progress in implementing loans to mortgage lenders. There is no information to report for this requirement, as MSHDA does not currently make loans to mortgage lenders and no plans are in place to begin such a program.						

1. The MSHDA First-Generation Down Payment Assistance Program is intended to raise MSHDA's affordable housing production and goals.

2. Due to a change in reporting methodology, ethnicity data excludes loans from July 1, 2024 through November 30, 2024 and DPA from July 1, 2024 through December 31, 2024.

3. Due to a change in reporting methodology, data on the Race of homeowners excludes loans from July 1, 2024 through November 30, 2024 and DPA from July 1, 2024 through December 31, 2024.

*Further reporting requirements: Michigan citizens use the following single-family homeownership programs to aid, or in some cases, make possible, their purchase of a home in Michigan.

RENTAL ASSISTANCE & HOMELESS SOLUTIONS

Funding local homeless prevention service providers and administering Housing Choice Vouchers.

Obstacles Encountered					
Housing availability remains the primary obstacle within homeless crisis response systems across the state. This is compounded by rental costs that continue to rise and limitations within Fair Market Rent (FMR) calculations. Additionally, many COVID-era programs have ended without other funding alternatives identified or available. Subrecipient agencies also struggle with frequent staff turnover related to pay and the demands of the job, especially in direct services spaces like emergency shelters and other crisis intervention services. The same obstacles exist in the HCV program (availability of affordable housing, increased rental costs, as well as incomes not staying on pace with inflation). Likewise, MSHDA's HCV program was in a shortfall status for the majority of CY24, whereby limited new vouchers were placed in circulation to assist new families. This compounded the impact on the homeless response system as the resource was not available to move families from shelter or other temporary housing programs into permanent housing with the voucher program.					
Economic and Social Benefits to Neighborhoods, Local Units of Government, and Nonprofit Organizations					
MSHDA's investments in rental assistance and homeless solutions offer the following benefits:					
	Social	Economic			
Neighborhoods	Promotes neighborhood stability, protects children's education and well-being, reduces crime, strengthens social networks and	Reduces evictions and foreclosures, prevents abandonment, keeps renters in place, adds money to local economies, attracts additional investment			
Local Units of Government	informal support systems, preserves cultural and economic diversity by preventing displacement	Reduces public expenditures in emergency shelters, hospital stays, incarceration, and crisis intervention; lowers healthcare, policing, and judicial system costs; protects municipal tax revenues by maintaining property values and employment- and consumer-related taxes			
Nonprofit Organizations		Attracts and leverages additional funding, builds capacity			
Displacement Impact					
MSHDA's RAHS programs aim to prevent displacement of lower income persons directly by keeping households in their homes and indirectly by influencing broader housing market dynamics and neighborhood stability. Rental assistance can stabilize neighborhoods at risk of gentrification by slowing tenant turnover and reducing investor					

1. Not all households receiving voucher support responded to demographic data collection.

*Further reporting requirements: Michigan citizens use Housing Choice Vouchers and other rental assistance programs to increase their resources that can be used to secure a rental unit, helping many Michigan households to avoid homelessness or housing precarity. RAHS also funds grants that organizations use to support the housing needs of other Michigan citizens.

*Sec. 403 of PA 22 of 2025 reporting requirements: MSHDA continues to strengthen its cross departmental coordination to support Michiganders experiencing homelessness or housing instability. The Chief Housing Solutions Officer at MSHDA serves as Chair of the Michigan Interagency Council on Homelessness, where the MDHHS Director of the Bureau of Community Services is a key member. This leadership structure ensures strong alignment between housing, health, and supportive services at the statewide level.

MSHDA and MDHHS meet monthly to align housing resources with health and service delivery strategies. This collaboration focuses on improving outcomes for households transitioning from crisis or temporary housing into permanent, stable housing. Joint efforts include:

- Coordinating referrals to permanent housing resources, including voucher programs and supportive housing opportunities.
- Leveraging Medicaid funded supportive services to ensure residents receive the long term care and stabilization supports needed to remain housed.
- Integrating Emergency Solutions Grant (ESG) funding with Emergency Shelter Program (ESP) operations to optimize service utilization and improve pathways to housing.

Through this continued partnership, MSHDA and MDHHS work to streamline systems, reduce fragmentation, and improve the overall effectiveness of Michigan’s homeless response network.

In addition to over \$10M in ESG funds to prevent and homelessness, MSHDA has leveraged \$4M in Housing and Community Development Funds (HCDF) for shelter diversion services that directly align with the MDHHS funded activities.

NEIGHBORHOOD DEVELOPMENT

Providing affordable housing solutions and opportunities to Michigan residents, neighborhoods and partners.

FY 2024-2025 Dollars and Unit production in Neighborhood Development in Michigan	116	\$50,721,396	1,201	203
---	------------	---------------------	--------------	------------

Grants to Local Units of Government & Nonprofit Organizations		Grants	Grant Dollars	Rehab Units	New Units
MI Neighborhood Grants		112	\$50,261,085	1,199	199
CDBG Housing Improving Local Livability (CHILL) Program		6	\$2,303,150	86	0
MI Neighborhood 1.0		77	\$35,041,685	706	140
MI Neighborhood 2.0		29	\$12,916,250	407	59
MI Neighborhood Eligible Grantees					
Local Units of Government	A city village, township, county, or any intergovernmental, metropolitan, or local department, agency, or authority, or other local political subdivision.				
Non-Profit Organizations	Michigan. A public or private nonprofit organization must be organized to aid persons and families of low or moderate income.				
For-Profit Developers	An organization that is working within the State of Michigan with LARA articles of incorporation, an EIN from IRS, and Sam.gov number.				
Reasons for Denied Applications					
213 grant applicants were denied funding in FY 2024-2025. Applications were denied if they were incomplete, if the proposed project was not shovel ready, and/or if funding had been exhausted for the applicant's geography.					
Discontinued Programs with Legacy Data¹					
MSHDA Investing in Community Housing (MICH)		4	\$460,311	2	4

Obstacles Encountered
The demand for housing and home repairs far exceeds the resources available. Utilization of multiple funding sources and program policies and procedures is very challenging. Development of a unified program application was difficult to design and develop with a new grants management system but after launch has become a much more streamlined process for both customers and internal staff.

Economic and Social Benefits to Neighborhoods & Municipalities
All NDD programs are designed to facilitate health and safety repairs to existing units or to encourage the development of new affordable housing. The programs provide stability to both residents and the housing stock itself.

Displacement Impact
The NDD programs do not allow displacement and/or relocation of existing residents to occur. Instead, the programs are designed to minimize displacement by providing grant assistance to address health and safety concerns and/or issues within properties to enable "aging in place" through energy efficiency and/or accessibility improvements.

1. MSHDA MOD, Neighborhood Enhancement Program (NEP), Small-Scale Housing Rental Program (SHRP), MICH, and MI Housing Opportunities Promoting Energy Efficiency (MI HOPE) have legacy data being collected or that grants were closed out in the past year. Of these programs, only MICH had new dollars committed in FY 2024-2025.

*Further reporting requirements: Michigan citizens, whether beneficiaries directly or through municipal or for- or non-profit participation, use MI Neighborhood grants and other MSHDA housing grants to repair aging housing stock, either expand access to or gain access to attainable housing options, and help communities revitalize neighborhoods across the state.

Exhibit 7. FY 2024-2025 Neighborhood Development Division Grants

CDBG Housing Improving Local Livability Program (CHILL)

Grantee Name	Municipality	County	Grant Amount	Units Rehabbed	New Units

Housing Development Fund (HDF) Collaborative Grants	9	\$1,567,981	0
Housing & Community Development Fund (HCDF) Grants	8	\$1,200,020	0
Tribal Nations Housing Development Assistance Program (TNHDAP)	6	\$489,500	0
Obstacles Encountered			
The demand for housing and home repairs far exceeds the resources available. Utilization of multiple funding sources and program policies and procedures is very challenging.			
Economic and Social Benefits to Neighborhoods & Municipalities			
All Housing Solutions programs are designed to facilitate health and safety repairs to existing units or to encourage the development of new affordable housing. The programs provide stability for both residents and the housing stock itself.			
Displacement Impact			
No Housing Solutions activities directly resulted in any displacement of low- or moderate-income Michiganders.			

*Further reporting requirements: Michigan citizens, generally through municipal, for-profit, or non-profit partners, use housing grants to repair aging housing stock, develop new affordable housing, and help communities revitalize neighborhoods across the state.

Exhibit 7. FY 2024-2025 Housing Solutions Grants
